

## **Costume Room**

It is still a challenge for storage and Donna and I will be back at the clearing out and sorting again now that the weather is cooler and my schedule is a little less hectic. The hat area has gotten out of control, it was nicely organized a while ago! If folks would like something just call and ask, I am always willing to help!

We have received some very interesting and unique pieces this past year and are always being offered more but I have been only accepting items I know we could make use of. Men's wear and hats are always useful.

We continue to supply the mall with their Remembrance Day display items; for which they are very grateful and that the public comments favorably on them each year. We have had fewer public rentals but James Bowlby and Julia Body continue to rent for their respective classes and productions. I also provided some items for the Tappen Co-op's 100<sup>th</sup> anniversary celebration. I still get requests for specific characters which we do not have i.e. Superman and the like.

Respectfully submitted by Cilla Budda
