

# Props Room Report

The props room has had another busy year! It continues to be well-used by our production teams, and it's wonderful to see our inventory bringing so many shows to life!

## **A few quick updates from the space:**

**Spring Cleanup:** Back in April, Chris and I spent some time doing a major deep clean and organization of the room. We sorted through the shelves of treasure and got everything looking neat, tidy, and easy to navigate for the next round of directors and crew.

**A Quick Safety Reminder:** Please remember that **the lanes leading to the furnace room must be kept completely clear at all times**. Please double-check that no props or set pieces are left sitting in those walkways.

Thanks so much to everyone who helps keep the space organized after strikes and rehearsals. Here's to another great season ahead!
