

## Scene Shop Report For Shuswap Theatre Annual General Meeting 2024/25

The scene shop continues to be well used throughout the year for set builds; prop preparation, float assembly and wood/building supply storage. It was noted that a few tools needed to be purchased, as set building crews were larger this past year, and many of the crew had to bring in their own tools. We were given a portion of funds from the 2024 Annual Disbursement from the Shuswap Theatre Endowment Fund with the Shuswap Community Foundation to purchase tools to help with set building. From these funds a cordless nailer, and a six tool combo kit were purchased.
