

## **Scene Shop Report for Shuswap Theatre Annual General Meeting 2023-09-20**

The scene shop is fairly well equipped with most equipment operating as intended. As the theatre has returned to full performance schedules the scene shop and Sea Can are in need of a clean and organization, I would expect to see this task completed once "Treasure Island" has wrapped up.

Over this next year I would recommend that a new rechargeable set of Drill/Drivers be purchased. The associated cost is estimated to be \$300.00 for a set of quality drills with chargers.

If additional funds are available, I would further recommend that a Mitre saw with a slide be purchased. This upgrade would allow for 45 degree cuts to be made on 6" and 8" materials.

This purchase is estimated to be \$450.00
